Journal Publication Opportunity!

Texas A&M University-San publishes the Southwest Teaching and Learning Journal, a peer-reviewed journal associated with this conference. All authors with presentations accepted to this conference are invited to submit a full paper for consideration in this year’s journal. All papers are subject to a double blind review process. To enter consideration for this year’s journal, please submit your properly formatted paper (guidelines below) to SWTLJournal@tamusa.tamus.edu. Please check manuscript for grammatical errors, misspelled words, and ensure that all references are cited and all citations are referenced before submission. The deadline for submission is May 5, 2013. Preference will be given to papers containing empirical research. If you have any questions regarding submission to this year’s journal, please contact the editor, Dr. Josephine Sosa-Fey, at SWTLJournal@tamusa.tamus.edu.

Call for Reviewers!

The Southwest Teaching & Learning Journal, a peer-reviewed publication At Texas A&M University-San Antonio, is looking for ad-hoc reviewers for our next issue. SWTL Journal is a cross disciplinary journal that publishes the best papers from our conference each year. We are looking for experienced researchers in any discipline to serve as reviewers for this issue. To apply, please send your most recent CV to our editor, Dr. Josephine Sosa-Fey, at SWTLJournal@tamusa.tamus.edu.

SUBMISSION GUIDELINES

Manuscript Submission and Length
All papers for the journal should not exceed 15 pages in length, single-spaced, including references.

Submission
Electronic submission of papers via e-mail: SWTLJournal@tamusa.tamus.edu.

By submitting a paper the author is certifying that the work is original, is not being considered for publication elsewhere, has not been accepted for publication or previously published, and is not copyrighted. NOTE: The journal editors are not responsible for the content of manuscripts published. Proofreading of the manuscripts and any errors are the sole responsibility of the individual authors.

First Page
The title of all papers should be centered, not to exceed three lines, and typed in all caps (Times New Roman, 16-point font) on the first page.

The author(s) name(s) followed by affiliation(s) should be centered, single-spaced, and typed (Times New Roman, 12-point font) beginning on the second line below the title. Do not use titles such as Dr., Professor, Ph.D.

Abstract
The abstract heading should appear two line spaces below author(s), centered, capitalized, and italicized in 12-point font. The abstract text for a paper should appear one-line space below the abstract heading, indented 0.5 from the left and right margins. It should be italicized in Times New Roman, 10-point font, 200 words.

Paper Typing
All papers must be typed in Microsoft Word using Times New Roman and a 12-point font.
• All papers must be typed, single-spaced, on regular 8.5” x 11” paper, and fully justified.
• Margins should be set to 1-inch top, bottom, left, and right.
Tables and Figures
All tables and figures should be typed in Microsoft Word and incorporated into the body of the text within the margins. They should be placed as close as possible to the location in the text where they are first cited. For each table or figure, center “Table” or “Figure” with a number (1, 2, etc.) above the table or figure. The identification labels should be under “Table” or “Figure,” centered, typed in initial cap for each word (Title case). Each table or figure and its identification label should be in bold type.

Math and Equations
Use words in regular text, not math. For example, “We surveyed 100 managers,” not we “We surveyed n= 100 managers. We used chi-squares to evaluate coefficients. Not “We used $X^2$s.” You can report statistical results using symbols in parentheses. Display and number only equations you mention in your work. Equation numbers should be between parentheses and flush with the right margin.

Footnotes and Endnotes
Do not use any footnotes or endnotes.

Reference Format
- References should be placed at the end of the manuscript and should include only those actually cited in the text.
- Each reference should have a 0.5-inch indentation on the second line, and one line space between references.
- The style guidelines for references must follow the publications manual of the American Psychological Association (APA):
