Procedure Statement

This procedure delineates the process for the administration of sponsored agreements for internally and externally funded research and non-research initiatives.

Reason for Procedure

The procedure for the administration of sponsored agreements ensures that these agreements are managed consistently across the university.

Procedures and Responsibilities

1. GENERAL
   1.1 Texas A&M University-San Antonio will adhere to the guidelines provided in System Regulation 15.01.01 Administration of Sponsored Agreements – Research and Other.

2. PREPARATION, APPROVAL, AND SUBMISSION OF PROPOSALS

   2.1 GC will identify the program and the funding source.

   2.2 GC will notify the appropriate academic department head and division head as well as the Office of Institutional Advancement (OIA). A meeting or discussion may occur to clarify concept and discuss fundability.

   2.3 GC and a representative from the OIA will identify deadlines and establish a timeline for preparation, approval, and submission.

   2.4 GC will prepare and submit, in a timely manner, a one page summary of the proposed project to department and division heads as well as the OIA. The summary should include the funding source, statement of work, preliminary budget, deadline, partner institutions/organizations/agencies, and program summary as well as identify the PI and/or co-PIs. University stakeholders will review the summary and provide timely feedback. OIA will preview the one page summary with the University’s Executive Cabinet members.
2.5 All proposed sponsored agreements will include time periods for expending funds, provision for financial and technical reporting, and intellectual property assignments to include patents and copyrights. The AOR, in cooperation with the PI and co-PIs and the Division of Finance and Administration, will oversee negotiation and acceptance of sponsored agreements.

2.6 A proposal will include all elements such as determined by state/federal requirements outlined in the request for proposal or funding agency/organization guidelines.

2.7 PI and co-PI will work with the OIA to ensure all guidelines are satisfied.

2.8 When the proposal is complete, the AOR will review and submit to the University President for final approval.

2.9 Once the President has approved the proposal, the grant will be submitted.

3. ALLOWABLE COSTS

3.1 Applicants must adhere to the requirements identified by the funding source in terms of allowable costs. Any inquiries on identifying allowable costs should be discussed with the academic department head, OIA and/or the Division of Finance and Administration. The PI and co-PI are responsible for monitoring and adhering to OMB Circular A-110.

4. DOCUMENTATION REQUIREMENTS

4.1 The PI and co-PI are responsible for adequately documenting all costs charged to sponsored projects according to the established agreements. Records will be maintained in a timely manner.

5. EFFORT REPORTING COMPLIANCE

5.1 The PI and co-PI are responsible for ensuring that accurate time and effort reporting is kept for all employees who are assigned to each sponsored agreement project. This time and effort reporting will include workload for each specific project by exempt-employee or nonexempt employee based on funding agency requirements. The completion dates will coincide with payroll deadlines but are not a substitute for payroll documentation (and vice-versa).

5.2 Each PI and co-PI is responsible for establishing and maintaining an acceptable effort reporting system for all employees on the sponsored agreement. This can include a hardcopy paper/pen solution, electronic spreadsheet, database, etc. If an electronic process is established, data must be in a format which permits transferability to OIA, Finance & Administration, and funding agency.

5.3 All faculty and staff who fulfill sponsored agreements, without exception, must complete and submit accurate time and effort reports according to the format established by the PI or co-PI. This includes “individuals paid directly from any sponsored project”, and “individuals paid directly from any other non-sponsored...
funds that provide some effort on sponsored projects (cost sharing effort)“.

5.4 Based on the arrangements specified in the sponsored project, individuals will be assigned and expected to contribute to the project as agreed. It is the responsibility of the PI or co-PI to maintain accurate time and effort records and to certify their accuracy based on reporting standards of the funding agency for all approved individuals. In addition, the PI or co-PI are responsible for documenting all cost-sharing agreements for individuals who are paid or who are providing cost-shared effort on federally sponsored projects.

5.5 Until the university has a webserver which can handle an electronic web-based format for the access and submission of timely certification, it is the responsibility of the PI or co-PI to utilize a system to achieve this objective. Common application such as Google Docs or other free/inexpensive web-based username/password protected applications may be utilized for this purpose. The PI or co-PI will also provide access to the elected application for a delegation of authority for approval. Certifications of all time and effort reports will be done based on funding agency requirements however, under no circumstances will the reporting be processed less than each semester.

5.6 PIs and co-PIs are responsible for ensuring that all time and effort and cost-sharing schedules are signed by the responsible individuals within 90 days following certification. Should the certification forms not be signed in a timely manner, the PI’s supervisor will ensure that all forms are signed within five business days.

6. RECOVERY OF COSTS

6.1 Until the university has obtained a cost recovery rate approved by the United States Department of Health and Human Services, the university is not authorized to charge a cost recovery rate.

7. COST SHARING

7.1 Based on established rules of accounting for the university, all types of cost sharing will be documented and identified in the university’s accounting system with the exception noted in 11.4 of System Regulation 15.01.01.

7.2 As part of each employee’s fiduciary responsibility to the university and the State to minimize cost-sharing to the extent possible, it is the AOR’s responsibility to ensure that this is addressed and documented and that the GC and PI reflect this in the narrative and submitted budget for grant proposals. This will be accomplished during the grant proposal writing budget development and approval process.

7.3 The PI is responsible for identifying all cost-sharing activities and budget items and to identify when items need to be approved from agencies outside the university.
7.4 The PI is responsible for documenting all cost-sharing activities and when such identified activities occur. The AOR will provide oversight assistance as requested by the PI.

Related Statutes, Policies, or Requirements

- System Policy 15.01 Research Agreements
- System Regulation 15.01.01 Administration of Sponsored Agreements – Research and Other
- TAMU-SA University Rule 15.01.01.01 Administration of Sponsored Agreements – Research and Other

Definitions

- Authorized organizational representative (AOR) – An administrative official who is authorized to make certifications and assurances on behalf of the university and can commit the university to a sponsored agreement.
- Grants champion (GC) – An individual -- faculty member, administrator, etc. -- who identifies a program or need for the university and who desires to take the lead role in the preparation of the grant proposal. This may or may not be the principal investigator (PI) or co-PI.
