Cultivating Connection & Community in 21st Century Education

Looking across the landscape of mental health, social justice, leadership and higher education change in the 21st century, NguyenVoges' research unpacks how motivation, disconnection, and community in general have been formative contrasts shaping digital literacy, the learning experience, and society as a whole.

Join us for the Cultivating Connection and Community workshop, where Dr. NguyenVoges offers practical suggestions for fostering connection, community, as well as the larger role these ideas play in centering, celebrating & empowering our unique and wholly human stories.

Alternative Assessments

At one time or another, you have or will experience the "exam writing rut." How do you get out of it? Get creative! There are many ways to assess student knowledge.

Let us help you think past traditional knowledge assessments, so you can get out of the rut of exam writing and get back to the fun of teaching and learning.
